raaco Tool Taco

PRODUCT GUIDE

Toolboxes

Tool Taco

One system – endless possibilities

raaco's Tool Taco system is designed for those who will not settle for next best. The traditional toolbox has been transformed into a well-thought-out system with great flexibility and a sporty design that will give you years of good service.

Good craftsmen deserve the best – and you get that with the Tool Taco System. The system gives you the freedom to customise your own toolbox and modify it as necessary. This makes the Taco Tool System your indispensable companion in your daily work.

First choose the size of your Tool Taco, then equip it with the desired accessories.

The range includes pockets, holders and boxes that make it easy to keep track of tools and small parts. You can also use the Tool Fix tool holder as a space organiser, to create order and clarity in your Tool Taco toolbox.

Simply fit the accessory with clips or velcro, and you're ready to go.
