Tradename

- Plastic Internal Panels

Benefits and Features

- ABS plastic, UL94-HB
- Unique hole grid allows electrical and/or electronic devices to be mounted to panel as a subassembly without punching or drilling holes.
  - Easier prototyping
  - Allows pre-testing of components
  - Faster, less costly infield assembly

Used With

- NB Series NEMA boxes as indicated

Assembly and Installation

- Panel comes ready for installation
- Attaching screws need to be purchased separately
- Place panel inside of enclosure, aligning mounting holes with enclosure mounting bosses
- Insert screws and tighten

Competition

- Carlon
- Fibox
- Hammond
- Hoffman

Questions to Ask

- Do you have a number of components that go inside of the enclosure?
- Does your product lend itself to pre-assembly or subassembly operations?
- Is hookup of internal components easier when done outside of the enclosure?
