7432/7434

Progressive Movement

Models 7432 and 7434 are patented Accuride designs that feature exceptionally smooth progressive movement and a user-friendly rail disconnect. These slides have a shorter profile height than most of the rail-mount products in our line up. That, combined with the load rating and drawer width capacity make the 7400 slides suitable for use in shallow as well as deep drawer applications in residential or commercial environments.

Features and Benefits

- 100 lb. load rating
- 7432 offers full extension; 7434 has 1-inch over travel
- Accommodates drawers up to 24-inches-wide.
- Progressive movement provides smooth and quiet operation.
- Rail mounting system provides easy drawer disconnect and enhances smooth movement.
- BHMA certified to Grade 1 HD-100 Standard
- Hold-in detent prevents drawer roll-out and bounce-back.
- Cam Drawer Adjust mechanism allows up to 1/8-inch range of vertical drawer front adjustment.
- 32 mm and traditional hole pattern

Availability

- Even lengths 12–28 inches
- Available in clear zinc or black finish
