LUX CASE

Fast assembly plastic enclosures for electronic instruments

The unique design of our LUX CASES provides flexible PCB mounting and easy access to the electronic components.

- three part assembly with top, base and center section
- vertical and horizontal PCB mounting – a special advantage of the LUX CASE range is the unique moveable card guide; the guide is fitted to the center section and can be moved horizontally on the rail
- PCB assemblies can be simply inserted from the front; for this, the PCB is assembled to the front panel
- fast clip together assembly with optional screws
- three types:
  LUX CASE 150 with/without battery compartment for 4 x AA / 1 x 9 V cells
  LUX CASE 190 with/without battery compartment for 4 x AA / 1 x 9 V cells
  LUX CASE 230 with/without handle and ventilation slots
- off-white/pebble gray color combination; other colors to match your corporate design, on request
- cable strain relief for versions without a battery compartment
- tilt feet for ergonomic operation (accessory)
- four non-slip feet included
- slide-in or screw fixed aluminum front panels available
- protection class < IP 40
- internal mounting pillars for PCBs etc.
