# DIN-MODULAR CASES TYPE A

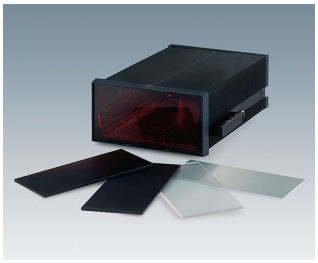

## Versatile panel mount DIN boxes

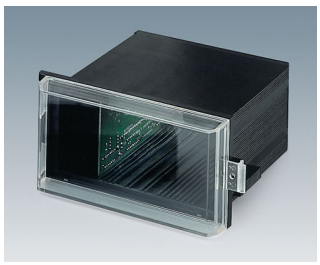

Our TYPE A DIN-MODULAR plastic enclosures are designed according to DIN IEC 61554*, and feature snap-together assembly for faster installation, unlike conventional DIN boxes which require assembly by screws.

- seven standard dimensions  2.835" x 1.417", 1.890" x 1.890", 3.780" x 1.890", 2.835" x 2.835", 3.780" x 3.780"*, 5.669" x 2.835"* and 5.669" x 5.669" with variable case depths  (*does not correspond exactly to DIN IEC 61554)
- material corresponds to UL 94 V-0: self-extinguishing and shock resistant; high standard of mechanical and electrical properties
- fixing of the PCBs by the rear frame
- fast and secure snap-together assembly
- range of front and rear panels
- fastening elements for mounting the control panels included
- advantage of the design principle is the implementation of optional case length to match the application exactly
- transparent cover protects display and operating elements (sizes 3.780" x 1.890" to 5.669" x 5.669")
- PCB guides on two or all four internal faces
- protection class < IP 40

View Customizing Options

What do you still need for your own very personal product? We can supply enclosures and tuning knobs with all necessary modifications for fitting your electronic components.
