Category PC1:

No integral protection against electric shock. If required, Designers/Manufacturers must provide additional protection against electric shock on equipment.

Category PC2:

With integral protection against electric shock. Fuse-holders shall have live parts inaccessible to IEC 529 Standard Test Finger, when fully assembled, without fuse carrier or fuse in place and when fuse carrier, with fuse is being inserted or withdrawn.

Category PC3:

With integral protection against electric shock. Fuse-holders shall have live parts inaccessible to IEC 529 1mm dia. rigid test wire when fully assembled, without fuse carrier or fuse in place and when fuse carrier, with fuse is being inserted or withdrawn.

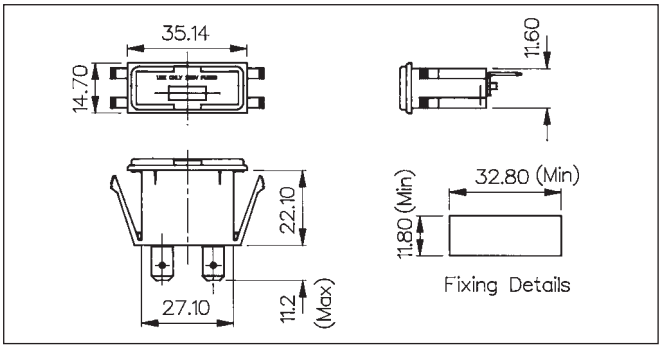

For full definitions see IEC 127-6 : 1994 Clause 9

Fuses 5 x 20 mm

FX0370

FX0370/Rating: **Approvals:** BSI

Glass, Quick Acting F, low breaking capacity. Conforms to EN60 127-2, Sheet 2.

Breaking Capacity: 35A or 10 In (whichever is greater) @ cos ø = 1 @ 250V.

Voltage Rating: 250V. a.c.

Endurance: Cycling test as specified in EN60 127, followed by 1 Hour @ 1.5 In.

Ambient Temperature: IEC/BS specifies 15°C to 35°C. FX0370 up to and including 70°C without derating.

Note: Rated Current (In). The current that a fuse will carry continuously without deterioration.

FUSES

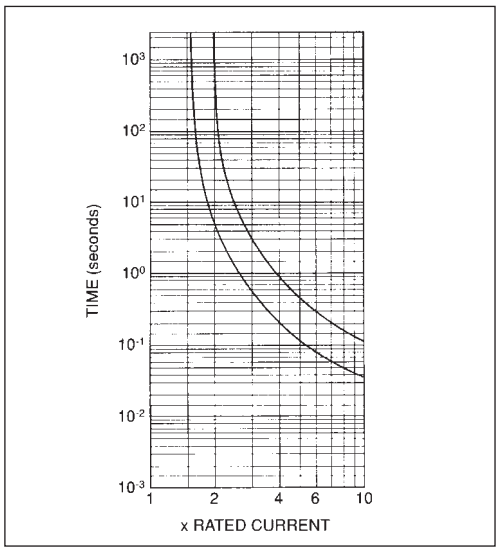

Certificate No. FM12623

20.0A	32	32	Light Orange & Violet
25.0A	32	32	Light Orange & White

FX0120

FX0120/Rating:

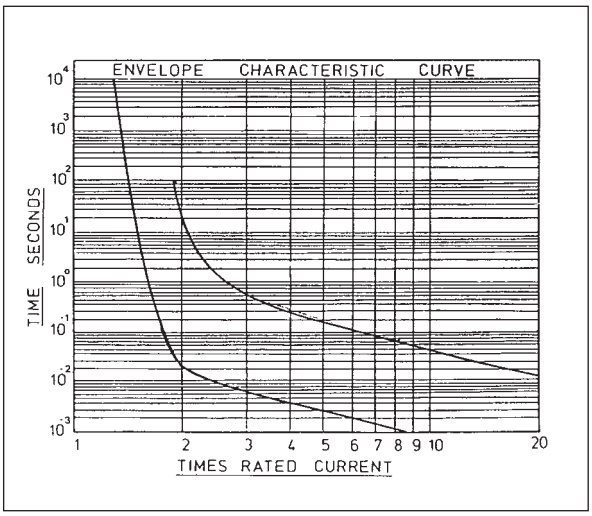

Glass, Quick Acting F, low breaking capacity.

Breaking Capacity: 10In @ rated voltage. Conforms to BS2950A.

Voltage Rating: See table.

Endurance: 1000 hours minimum @ In.

Note: Rated Current (In). The current that a fuse will carry continuously without deterioration.

Fuses 6.3 x 32mm

FX0283

FX0283/Rating:

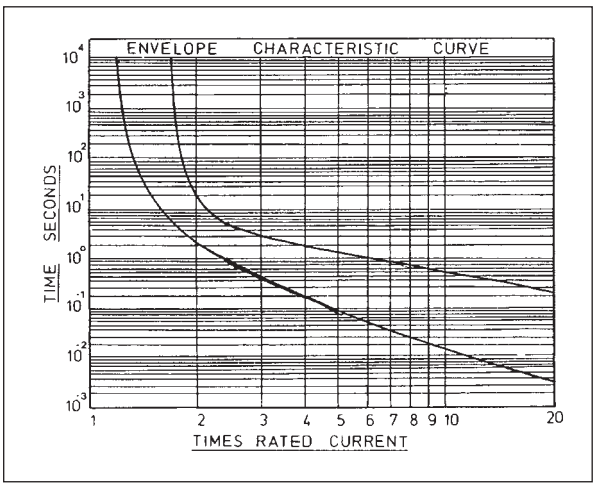

Glass Time Delay T, low breaking capacity.

Breaking Capacity: 10 In @ rated voltage.

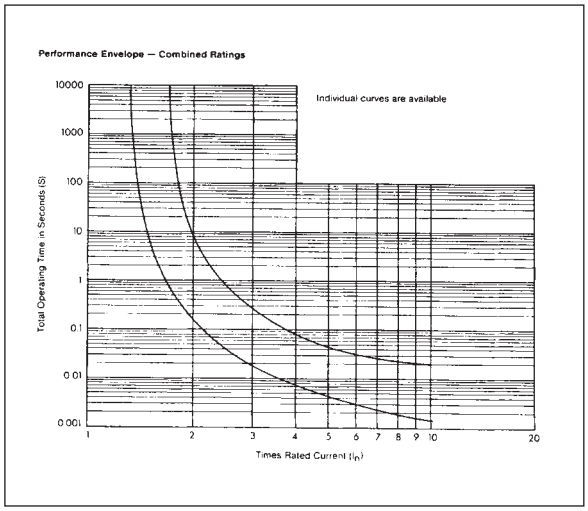

Voltage Rating: See table.

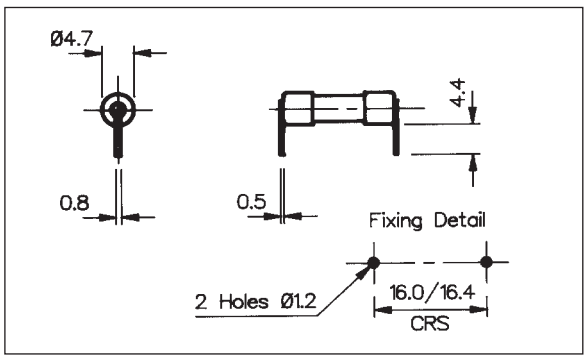

Endurance: 1000 hours minimum @ In.

Note: Rated Current (In). The current that a fuse will carry continuously without deterioration.

Fuses Miniature P.C. Mounting

FX0301

FX0301/Rating:

Glass, Quick Acting F, low breaking capacity.

Blowing Time: Within 10 secs @ 2 x In, instantly after carrying In for > 1 min & < 10 min.

Voltage Rating: 250V. a.c. (unless otherwise stated below).

Note: Rated Current (In). The current that a fuse will carry continuously without deterioration.

Current Ratings		
60mA	500mA	4A (100V a.c. MAX.)
100mA	750mA	
250mA	1A
