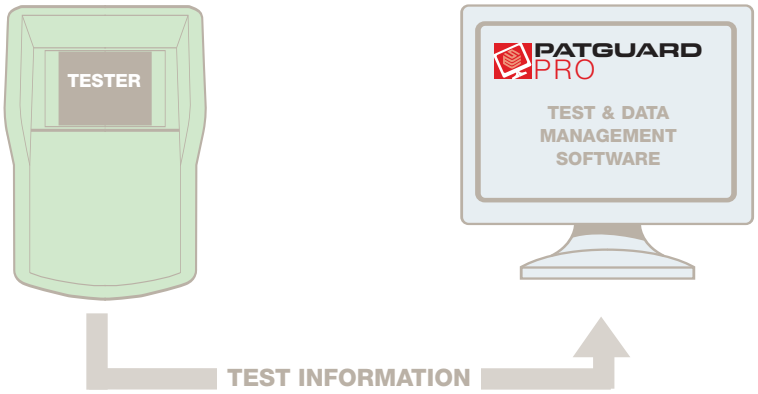
PATGUARD PRO

This is a comprehensive software package and is ideal if you require detailed asset management information. It enables you to capture more information from the PAT tester as well as storing more information on the appliance history. The vast range of reports and clear identification of items in need of re-testing allow you to access more information on your test record, quickly. One of its key features is its fast download as the tester can be hooked to your PC for direct downloading. PATGuard Pro uses Windows-based management of information so it's easy to learn how to use it.



Key Features

- **Automatic record generation**
- **Icon style display**
- **Drag & Drop for easy re-location**
- **Most PAT downloads accepted (all Seaward)**
- **Database compatibility across range**
- **Compatible with PATGuard Workabout**

SUPERIOR SOFTWARE

Our PATGuard software is designed to be highly functional, easy to use and above all, helpful. It is available in three versions, each offering the optimum number of functions depending on your requirements. Each software package will add value to the safety testing facilities you offer your customers or use in-house. This can be achieved by utilising full test records, scheduling and pre-emptive, automated notification.

This means you know exactly where all test equipment is located, its test status, and when it requires re-testing. Add to that our PATGuard Work About software which enables mobile working through your PDA and PATGuard Time Manager for managing test times on the job, and you are in total control.

This cuts down on administrative tasks, it can save a lot of valuable time. So whether you are a large international company or small, local firm, PATGuard software makes economical sense.

To find out more please contact us on 0191 586 3511, visit www.seaward.co.uk or email us sales@seaward.co.uk.
