xPrintServer™ is an easy-to-use, affordable 'plug-and-print' solution for Apple® iOS devices, enabling wireless printing from the native print menu to networked printers.

xPrintServer™ enables printing for iOS devices such as iPads® and iPhones® using their native print menu. It eliminates the need to print through apps, install software, or email yourself documents for printing. And not only can you plug it in anywhere, but xPrintServer works with virtually any printer, on any network.

Set-Up is Automatic & Quick!

Simply plug the xPrintServer into your network (router, switch or LAN with a wireless access point). Within seconds the xPrintServer will autodiscover printers on your network to enable printing from iPads® and iPhones®.

Print from Many iOS Devices to Many Printers!

Each xPrintServer supports unlimited iOS devices and multiple networked-printers (up-to 10 printers recommended).

xPrintServer Highlights:

- Print to virtually any printer - no need to buy new printers
- No apps or software to buy or load
- Easy to use / automatic discovery and set up of printers
- Print directly from the iOS native menu
- Supports more than 4,000 top brand network printers
- Customize settings and security options via web interface
- Perfect for home office, small business and enterprise users

Open it. Plug it in. Print.

LANTRONIX®
CONNECT SMART. DO MORE.

(iPhone®, iPad® and printer not included)
